

# Evident **Health** Status

Safely and privately monitor employee health status to reduce COVID-19 exposure, mitigate risk, and avoid liability.

## Ensure **Health and Safety**

**Evident's Health Status app** helps maintain workplace safety and mitigate COVID exposure by automating daily health surveys, supporting contact tracing, and aggregating employee health data. Evident provides immediate employee status and policy results to employees so they can safely get to work.

## Demonstrate **Action, Accountability and Compliance**

**Evident's Health Status app** synthesizes daily health monitoring results in a single, easy-to-use dashboard for HR administrators to build trust through transparency with employees and demonstrate compliance to regulators and action/accountability to stakeholders.

## Reduce **Risk and Liability**

**Evident's Health Status app** leverages end-to-end encryption and bank-grade security to protect sensitive health data and facilitate employee consent, enabling businesses to demonstrate compliance with EEOC, FFCRA, HIPAA, public health guidelines, and data privacy regulations.

In the face of COVID-19, businesses are trying to accomplish three objectives:

### Ensure Safe and Healthy Community

Identify and trace who's high risk and at risk, and take action.

### Demonstrate Action and Accountability to All Stakeholders

Showcase action internally and externally at individual and aggregate levels.

### Mitigate Risk and Liability

Protect businesses from liability and protect employees' privacy and personal health data.

Revolutionizing the way **personal data** is shared.

Simple  
Start quickly, scale easily

Accurate  
Data you can trust

Secure  
No exposure to personal data

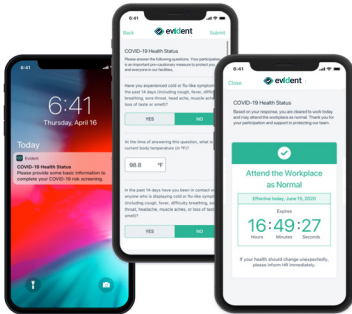

Compliant  
Privacy by default

# Identify Risk, Communicate, and Take Action

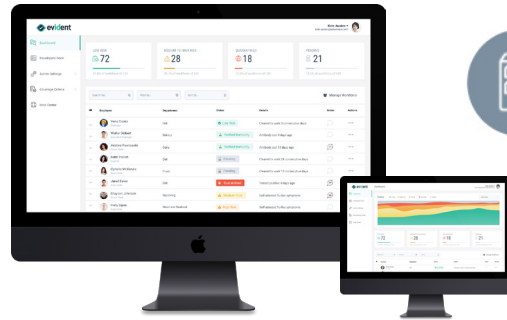

## Multiple data sources tied to an employee-facing app

Health surveys, medical records, vital signs, contact tracing, etc.

## Employer access admin dashboard to view risk scores

Enables visibility and actions at individual and aggregate levels

Regularly and privately communicate health information with your people.  
Get a clear indication of risk based on your company policies.  
Keep a clear, immutable record of all data to prove compliance.

## Health Status Product Benefits

Workflow and Health Data Capture	Privacy and Compliance	Data and Analytics	Contact Tracing
<ul style="list-style-type: none"><li>▶ COVID-specific dashboards and workflows to minimize administrative overhead</li><li>▶ Simple and secure data collection method and ability to view daily status</li></ul>	<ul style="list-style-type: none"><li>▶ Enables secure exchange of sensitive health data</li><li>▶ Limited disclosure and consent management addresses HIPAA, EEOC, FFCRA and other privacy regulatory concerns</li></ul>	<ul style="list-style-type: none"><li>▶ Comprehensive data collection: daily survey, health records, wearables, temperature sensors, public health statistics</li><li>▶ Analytics &amp; alerting to simplify decision-making for HR administrators</li></ul>	<ul style="list-style-type: none"><li>▶ Tools for HR administrators to manage risk of spread of infection once known case of COVID is identified</li><li>▶ Simplified worker engagement and communication tools</li></ul>
